

## Corporate Overview

Prospect 33 is a New York and London based Information Technology Consulting practice delivering services to the global Investment Management community. Our clients trade a wide range of asset classes and utilize a significant cross-section of technological platforms.

Our distinctly onshore focus enables us to eliminate many of the complex communication issues that frequently occur when dealing with disconnected global service centers.

Our portfolio of services is oriented around the end to end objective of facilitating a smooth transition from start to finish. These services include:

- Consultancy Services
- Managed Project Services
- Executive Placement

We aim to help our customers leverage their technology investments and ensure the maximum efficiency from their technology departments.

## IES - Infrastructure & Enterprise Services

Information Enterprise Services (IES) is a truly global part of Prospect 33's service portfolio, offering IT Infrastructure services including computing, storage and networking hardware and software services. The division's objective is to provide a reliable, cost effective, scalable, and state-of-the-art IT infrastructure for application development as well as for all business units within our client's organizations.

Prospect 33's IES Group aims to transform traditional IT Infrastructure to an infrastructure where the underlying technology (including virtualization, grid and automation techniques) is being delivered as a set of open, flexible, standardized and highly available services.

P33-IES is the branch of general technology services concerned with:-

- Technology Infrastructure
- Network Services (LAN/WAN & SAN)
- IT & Firewall & Network Security
- Penetration Testing
- Desktop Migration Services
- Messaging Services
- Collaborative Technologies
- Virtualization, Hosted & Cloud Services
- Mobile Services (Email, Chat, Instant Messaging, Mobile Devices)
- TelePresence & Video Conferencing
- IT Risk & Security

**Execution Management** - our team of Execution Managers have a track record at delivering projects on-time and on-budget within international finance & investment firms throughout the world, on engagements ranging from London to the Far East.

Prospect 33 represents a conclusive global partner with a strong onshore focus.
